

FITCHBURG HIGH

Class of 2021

Fitchburg High School
"Be Present, Prepared, and Positive – It's the Red Raider Way"
140 Arn-How Farm Road
Fitchburg, MA 01420

Dear Members of the Fitchburg High School Class of 2021:

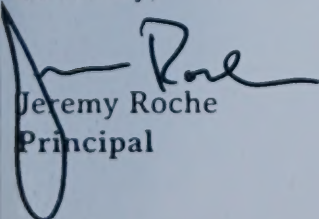

I have had the distinct pleasure to work with and for the Class of 2021 for the past four years, the last two being unlike any other in the history of the American education system. During that time, and despite amazing challenges, the class of 2021 has not only achieved strong results in the classroom and on the athletic fields but in our community in the ways that made the City of Fitchburg a better place. In fact, the Class of 2021 has not only improved Fitchburg High School, but it has raised the profile of our school which is now considered one of the best in the Commonwealth of Massachusetts!

To start, I am extremely grateful to the Class of 2021 as you have built upon the continued progress that our school has made in recent years. FHS is highly recognized in the state and the nation due to your efforts. For example, while students at FHS, the school has been noted in both the Washington Post's America's Most Challenging High School and U.S. News and World Report Best High Schools lists. In addition, as a class you have earned, achieved, and/or performed the highest attendance rate, highest graduation rate, lowest dropout rate, gold medals for the band, the highest number of qualifying scores on Advanced Placement exams, countless individual scholarships and recognitions, hundreds of dual enrollment credits, playoff qualifications in athletics, and many other recognitions. More importantly, you have helped our community with food drives, community events, youth ventures, volunteer hours with children and the elderly, and have led FHS to win the Canned Food Drive versus LHS two out of the three years we were able to do it! This combination of strong academics, service to our school and community, and a dedication to extra-curricular activities illustrates the impact you have had on FHS.

What I must address is the way in which you all stayed together during the global COVID19 pandemic. At a time when we had to isolate and remain in our homes for months on end, you stayed POSITIVE. When we had the opportunity to completely withdraw and pull away from school and others, you were PRESENT. When the challenge of returning to classes, activities, college applications, military enlistments, working many hours to earn money, you were PREPARED. You have faced an event that no other class in the history of our great school has encountered. It has changed the course of not only your junior and senior year experience but the modern world as we know it. What I know is this crisis will not be the narrative that defines the Class of 2021. Your resilience, tolerance, respect, kindness, unity, and belief in a better world and future will be that story. Each of the 261 members of the class have the opportunity to embark on not only your own path to success but one in a world that is truly yet to be defined. Take advantage of this opportunity and I cannot wait to see what you all do!

Members of the Class of 2021, I am grateful to have served you as Principal and hope that you each of you finds the success and fulfillment that you deserve. Finally, as a graduate of FHS you have earned the right to be considered a Red Raider for life and that is a distinction that no one can ever take away from you. Congratulations and Go Red Raiders!

Sincerely,

Jeremy Roche

Leaving Monty Tech has been the best decision I have ever made. These past 3 years have been amazing. I will forever be grateful for everything and I'll never forget all the special moments I've had with my friends at Fitchburg high, from watching fights in the bathroom, to hearing Mr. D yell at everyone to get to class.

I honestly didn't think I'd make it to senior year. I didn't know who I was or what I wanted for myself in freshman year. I reached my lowest point in sophomore year, but from there, I learned valuable lessons and that the people you surround yourself with are important. I made mistakes and I've been in pain, but I've come out stronger.

Time flies ridiculously fast, but the memories you make during those times linger far longer. I've made quite a lot of memories in high school and I'm sure that all the friends, family, and teachers that I have shared all of these memories with will forever remain in my mind. Everyday was something new, something exciting, challenging, fun, always productive and proactive. I wouldn’t want to spend my high school experience at any other school! I would like to thank all the teachers

There are many things that I have learned through these 4 years at Fitchburg high that taught me things, such as self control and the ability to be a good student. I want to thank all of my teachers from all 4 years, but especially Mrs. Macnamer, Mrs. Martinez, Mr. Dell, Mr. Scott, and Mrs. Greenlees. Mrs. Greenlees was the best band director I could have ever asked for, and to my band mates who are not graduating this year (classes of 2022, 2023, and 2024), I wish you all the best and you will do amazing things with your life. There have been many bumps that have taught me life lessons throughout my time here in high school. As I move on in life, and continue my journey in this world, I take these lessons with me. Without the unconditional support of those who believed in me, especially Mrs. Farrero, I'm unsure of where I would be. High school was definitely something else. I came in excited for what was coming next to being emotionally unstable and ready for life to run its course. High school isn't football games and pep rallies, it's staying up until 3 am thinking you can get last night's assignment done

10 mins before class. I must've said the infamous "I'm fine" about a million times. Life likes to hit with a brick sometimes but you'll learn to throw it right back.

“I’m concerned that this year my computer screen seems brighter than my future.”

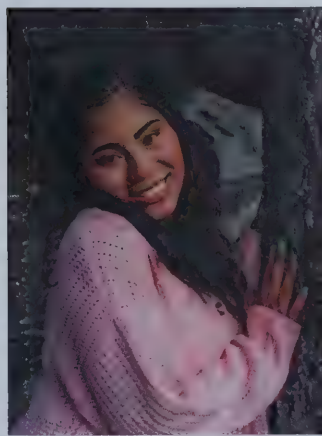

I transferred to Fitchburg High School for my junior year, and trust me, I was very upset and didn’t even want to transfer. I had so many negative thoughts in my head, like, “I’m not going to make friends”, “I’m going to dislike all the teachers I get”, “I’m just not going to like the

school overall”. However, my experience was actually the opposite. Once I stepped in the school everything I was thinking about was just not true. I made some incredible friends. The teachers, well, I just got to love them. They are just awesome. And all the staff members are just unbelievably friendly, caring, and sincerely committed to their students. Being a part of Fitchburg High School is one of the best things that has happened to me.

Change is always hard,

For me, it was moving to a

I was 13. It was a difficult
thing to get used to, with

changing schools more than once in the process, gaining

there are things that kept me from not losing my mind;
my best friend since middle school, my aunt who lives

Every good thing must come to an end-and while our final lap was a steeper race than years past, we finally met the checkered finish line (perhaps even virtually). It surely doesn't seem real that some of the faces I have been guaranteed to see everyday since kindergarten are going to start their own journey... some venturing far away, others forming their path

"The realest stick around even when you're at your lowest." I want to thank Mr. D, Coach Raff, Mr. Link, my girlfriend's family, Jesus Padilla, and Angel Alejandro, for nothing but loyalty. I've never been so low and they all were the ones to be here for me no matter what. I felt like nobody was here, even knowing my family was gone, but I held my head up and kept striving forward with my new family's help. I couldn't have asked for better

friends and family that kept it the realest. Coach D- thank you for being a true friend and always pushing us to be great. He'll do anything in his power to help out the students and teachers, probably being the most caring guy in the world. I also want to thank my friends, Jesus and Angel, who was there for me at my lowest. Those two are my true brothers that will never leave my side and I thank them for the things they do. I'm beyond thankful for my two football coaches/ teachers, Coach Raff and Coach Link, they're nothing but blessings. They taught me the game of football and both pushed me to be great at everything that I do. I just want to say thank you to all my haters too, because you guys are my motivation to keep moving forward. And last but not least, my paps in the heavens, looking over me everyday and pushing me to move forward without ever giving up on me. Capricorn Football 1, 2, Track 1,2

High school, to say the least, was an experience. Thank you to FHS for providing me with an environment that allowed me to grow into who I am today ,and as always, to those who created memories along with me. It's been fun but the real party is about to begin.

An idiot with good study habits. Myth busted: I dyed my hair blonde Junior year and determined that blondes do not, in fact, have more fun. All my love to ALS and ADP, you each take half my heart with you. Forever thankful to my parents and two older siblings for loving me as I am. Thank you Mama Houle for only kicking me out of your office occasionally <3 It’s been a moment.

I love FHS and that is a severe understatement. Words cannot describe how much I enjoyed my 4 years here. There wasn't a single teacher I didn't enjoy, especially Mr. Hamilton, Mr. Collins, Ms. Normandin, Mr. Kelly, the list goes on. Thank you all for making

my high school experience as good as it was.

I've learned so much attending Fitchburg High School. I've become family with my closest friends. Shout out to Mr. D, Mr.

Roche, Mrs. Puñales Santiago, Ms. Marrero, Ms. Taft, Ms. Proctor, Ms. Thomas, etc. for pushing me to my fullest potential when I thought I couldn't do it. I now know that this year will be the year I continue to push myself to do and know better, and to make better decisions instead of making the mistakes I made the last three years. Thank you to my family for always being there and supporting me physically, mentally, and emotionally. I wouldn't be where I am now without the push my mother or my teachers have given me. I'm ready for whatever comes this year, 2021!

There are many things I have learned throughout high school but the overall greatest thing I learned is how to be my true self and live life the way I want to. I learned that friends come and go and at the end of the day you only have yourself. I learned how to work hard

for the things I want and to never let anything stop me from reaching my goals. I want to thank the two people who have always been there for me for the last 4 years K.C and L.L. I can't wait to see what this next chapter of life has to offer.
